PUBLICATION OF THIS DOCUMENT
APPROVED BY THE
COMMISSION ON ADMINISTRATION AND FINANCE.

The Commonwealth of Massachusetts

DEPARTMENT OF PUBLIC UTILITIES.

Commissioners.

HENRY C. ATTWILL, LYNN, *Chairman.*
EVERETT E. STONE, SPRINGFIELD.
DAVID A. ELLIS, BOSTON.
HENRY G. WELLS, HAVERHILL.
LEONARD F. HARDY, HUNTINGTON.

ANDREW A. HIGHLANDS, Brookline, *Secretary.*
ALLAN BROOKS, Harvard, *Assistant Secretary.*
CHARLES E. MANN, Malden, *Clerk.*

Accounting Division.

JUSTIN W. LESTER, Boston, *Chief Accountant.*
ARTHUR D. SNOW, Wollaston, *Assistant Accountant.*
ERNEST W. WRIGHT, Boston, *Assistant Accountant.*

Rate and Tariff Division.

C. PETER CLARK, Newton Center, *Chief of Division.*

Engineering Division.

HENRY W. HAYES, Arlington, *Chief Engineer.*
WILLIAM J. KEEFE, Boston, *Assistant Engineer.*

Gas and Electric Division.

CHARLES D. JENKINS, Boston, *Inspector of Gas and Gas Meters.*
EARL H. BARBER, Reading, *Engineer.*
CLAIRE W. RICKER, Arlington, *Inspector of Electric Meters.*
LESLIE R. MOORE, Newton, *Assistant Inspector of Gas and Gas Meters.*
ARTHUR H. GEORGE, Wakefield, *Assistant Inspector of Gas and Gas Meters.*

DEPUTY METER INSPECTORS.

ORLANDO C. BOWERS, Natick.	JAMES J. DILLON, Malden.
EDWARD STEVENS, Boston.	CHARLES C. FARRELL, Malden.
FREDERICK G. RIPLEY, Malden.	JAMES W. MURPHY, Boston.

Railroad and Railway Inspection Division.

HENRY W. SEWARD, Winthrop, *Chief of Division.*

INSPECTORS.

LEWELLYN H. McLAIN, Melrose.

JOHN H. PARANT, Worcester.

JAMES E. RICH, Lynn.

MICHAEL J. SCULLY, Boston.

ARTHUR W. HODGES, Randolph.

CHARLES E. MONTGOMERY, West Medford.

TIMOTHY A. CONNOR, Brookline.

THOMAS LAFFEY, Boston.

PHILIP SCOTT, Billerica.

TIMOTHY J. LYNCH, Springfield.

HEMAN M. ALDRICH, Northampton.

THOMAS W. WHITCHER, Boston.

Sale of Securities Division.

SILAS F. WAITE, Boston, *Chief Inspector.*

EDWARD MOLONEY, Brookline, *Assistant Inspector.*

Telephone and Telegraph Division.

WILLIAM H. O'BRIEN, Boston, *Chief of Division.*

JAMES M. CUSHING, Boston, *Telephone Inspector.*

MICHAEL J. CONLEY, Boston, *Telephone Inspector.*

TIMOTHY F. DESMOND, Cambridge, *Telephone Inspector.*

Smoke Abatement Division.

WARREN A. EDSON, Boston, *Chief Inspector.*

LEWIS J. LYMAN, Everett, *Deputy Inspector.*

JOSEPH T. MEAGHER, Chelsea, *Deputy Inspector.*

Office, No. 167 State House, Boston.

The Commonwealth of Massachusetts

DEPARTMENT OF PUBLIC UTILITIES, January 17, 1923.

*To the Honorable Senate and House of Representatives in General Court
assembled.*

We respectfully submit the annual report of the Department
of Public Utilities for the year ended November 30, 1922.

COMMISSIONERS' REPORT.

Alonzo R. Weed, who had been a member of the Board of Gas and Electric Light Commissioners since 1906, chairman since 1914, and a member of this Commission since 1919, resigned on July 12, 1922, to accept an appointment as associate justice of the Superior Court. Mr. Weed's ability, experience, and intimate knowledge of public utility matters made his services of great and peculiar value to the Commonwealth, and his resignation was a matter of sincere regret to the Department.

Leonard F. Hardy was appointed to fill the vacancy caused by Mr. Weed's resignation, and assumed the duties of the office on July 18, 1922.

Edward Moloney, formerly a member of the police force of the town of Brookline, was appointed assistant inspector in the Sale of Securities Division on May 8, 1922.

In our last annual report reference was made to a rearrangement of the Engineering and Inspection Divisions, whereby the routine inspection of bridges and signals could be taken care of with no additional expense to the Commonwealth. This work has been done during the past year as provided in such rearrangement and more extended reference thereto will be found hereafter in this report.

The jurisdiction and supervision over the sales of securities and over brokers and salesmen engaged therein, conferred on this Commission by the provisions of chapter 499 of the Acts of 1921, as amended by chapters 317 and 435 of the Acts of 1922, has resulted in a marked increase in the volume of work requiring the attention of the Commission.

During the year ending November 30, 1922, the Commission has held 559 formal hearings, many informal hearings or con-

ferences, and 4,546 complaints have been received which have been adjusted or are in the process of adjustment.

Investigations have been made in accordance with resolves of the General Court and an order of the House of Representatives. In connection therewith hearings have been held and reports thereon have been made. More extended references to these investigations will be found hereafter.

A statement similar to those inserted in the annual reports of the two preceding years, giving the number of companies, persons and municipalities under the jurisdiction of the Department engaged in some form of public utility operations which file annual reports showing the results of their operations for the year ending November 30, 1922, follows. There were 358 companies, persons, and municipalities, divided as follows: steam railroad companies, 31; street railway companies, 44; telephone companies, 22; telegraph companies, 6; steamboat companies, 4; canal companies, 1; sleeping car companies, 1; voluntary associations, 16; express companies, 29; gas companies, 54; electric companies, 57; water companies, 48; municipalities, 41; persons, associations or manufacturing companies doing gas or electric business, 6. J. D. Gregory, Princeton, ceased the manufacture of acetylene gas at the end of 1921. There are now no persons or companies engaged in the manufacture of acetylene gas making returns to the Department.

The following table indicates the volume of work requiring the attention of the Commission as compared to the volume of work requiring its attention in the year 1921:

	<i>Petitions.</i>	
	1921.	1922.

On February 3 the name of the Tyngsboro Electric Light Company was changed to the Middlesex County Electric Company. This company has acquired the property of the Pepperell Electric Light and Power Company. On October 28, 1921, the latter company was dissolved by decree of the Supreme Court, upon the petition of the Attorney General.

On February 17 the Commission authorized the purchase by the Boston Consolidated Gas Company of the property and franchises of the East Boston Gas Company and the Newton and Watertown Gas Light Company, and on May 1 the consolidation was carried out. The decision authorizing this consolidation will be found in the Appendix.

The Commission approved on April 28 of the sale by the Worcester County Gas Company to the Spencer Gas Company of the mains through which the former company has supplied gas in the towns of Warren, Brookfield, North Brookfield, East Brookfield, West Brookfield, and Leicester. A copy of the Commission's decision will be found in the Appendix.

On September 13 the name of the Worcester County Gas Company was changed to The Palmer Gas Company.

The Massachusetts Transmission Electric Company was organized on May 19 under chapter 164 of the General Laws, and on August 24 the Commission approved an issue of stock by this company for the purpose of financing in part the construction of a high-tension transmission line to connect with the transmission line of the Blackstone Valley Gas and Electric Company, a Rhode Island corporation. The Commissioners' decision will be found in the Appendix.

RAILROADS.

During the first six months of 1922 conditions upon our railroads improved to such an extent as to justify the hope that by the end of the year they would be able to meet their costs of operation and would begin the new year upon a much better basis. Unfortunately, cuts in freight rates, practically forced upon the companies by the Federal authorities, followed soon after by the strike of the machinists and shopmen, accompanied in turn by the coal strike, prevented that improvement, and resulted in such poor service as to lead to wide protest from the people of Massachusetts. These underlying causes have been further aggravated recently by the severity of the weather. This Department is practically powerless to bring about better conditions in railroad transportation in Massachusetts so long as the Federal authorities and the public deny to the railroads the opportunity of obtaining the income so necessary for their needs, and what it was supposed that the Transportation Act of 1920 assured them. This, of course, presents a large problem, which is now being investigated by the special committee appointed by the governors of the several New England States. Unless the railroads can meet the cost of operation, it cannot be expected that their condition will

improve, but, on the other hand, it is quite likely to grow worse, with the consequent impairment of the facilities so vitally necessary to the people of Massachusetts and their industries.

The fundamental difficulty of the situation, as we pointed out in our last annual report, is that this Department, and for that matter this Commonwealth, is largely helpless to bring about better conditions in railroad transportation in Massachusetts so long as the real and ultimate control, both of their rates and of their labor charges, is placed in Federal bodies outside of and beyond the control of the people of Massachusetts.

STREET RAILWAY COMPANIES.

In our last annual report it was stated that some improvement had occurred in the street railway situation, due, in the main, to lower operating costs. This improvement has continued during the last year, due to the same cause and to somewhat increased riding. As but a few miles of street railway lines have been abandoned during the past year we have omitted a table such as was published last year showing the total number of miles of street railway lines abandoned.

During the year there has been quite a marked tendency towards a reduction in fares. This is illustrated by a material increase in the number of lines of the Boston Elevated Railway Company over which a ride may now be had for 5 cents, and also by a similar increase in the number of lines of the Eastern Massachusetts Street Railway Company over which a ride may now be had at a substantial reduction in the fare formerly charged.

We are gratified that the great majority of the public seems to realize that no good purpose can be served by compelling or endeavoring to compel the street railway companies to furnish service at less than cost, or at less than what will produce a fair return upon the capital reasonably and prudently invested in the business, and that only by permitting the companies to prosper can efficient service be obtained. The public has shown a laudable disposition to co-operate with the various companies in measures tending to restore the companies to a

sound financial condition. The physical condition and equipment of most of the companies have improved and the outlook for the street railways, as a whole, seems promising. The co-operative attitude on the part of the public is strikingly shown by the reduction in the number of petitions for the reduction or change in fares on street railways and the consequent reduction in the number of hearings held on the same. In former years a great part of the time of the Commission was spent on rate hearings in street railway matters, while during the past year such hearings have been infrequent.

Lower operating costs on some of the street railways have been possible largely by the use of one-man cars. Reference to this matter was made in the last annual report. At the present time the Boston Elevated Railway Company is operating about 20 per cent of its surface car mileage with this type of car, while the Eastern Massachusetts Street Railway Company is operating approximately 96 per cent of its mileage with such cars. The use of these cars has been the deciding factor in enabling the companies to render service that otherwise could not have been furnished at all, and to render more frequent service where the service formerly given was infrequent and inadequate.

The excise tax on street railways in our judgment should be repealed. We understand the tax was established originally to compensate the municipalities for the burden thrown upon them in keeping the streets between the rails and 18 inches on either side of the tracks in repair. Originally street railways were required to keep this part of the streets in repair, for the reason that when horses were used as the motive power the highway, including between the tracks and 18 inches on either side, was subject to unusual wear by the street railway companies. That reason no longer obtains. The operation of the electric car causes little or no damage to the highways, either on the outside or between the tracks. The continuation of this tax is simply assessing a burden upon the street railway car riders for the benefit of those who use the highways with other vehicles.

GAS, ELECTRIC AND WATER COMPANIES.

As a whole, these companies are in very good condition. In our last report we pointed out that some reductions in rates of the gas and electric companies had resulted from the fact that the war prices for coal and oil were beginning to recede, but that the reduction had been retarded by severe business depression which prevailed throughout the year, resulting in a diminished demand for gas and electricity which substantially offset in unit costs the gain made in the reduced cost of coal and oil. During the year there has been a further tendency towards a reduction in rates, but not to the extent that is to be desired. No petitions have been received from companies asking for increases in rates, and petitions by the public as to existing rates have been filed in but few cases. Here again the co-operative spirit of the public has been indicated. Hearings upon the petition of consumers and the mayor of Boston to fix the price of electricity sold by the Edison Electric Illuminating Company of Boston have continued throughout the year, and the case of the petitioners is not yet closed. These petitions and the matters being heard therewith are the only cases in which extended hearings before the Commission have been required.

The financial condition of the companies has continued to improve. They have found it somewhat easier to market their securities and upon more reasonable and lower terms. This has made possible needed improvements and conditions, so that the physical condition of the companies is better than that of a year ago. The price of coal and oil still continues high and there seems to be no indication that there will be a material decrease in the price during the current year. In fact, it is more probable that the price of oil will increase rather than decrease. As the cost of electricity and gas, particularly the latter, is very dependent upon these products, decreased prices to the public must be looked for largely through improved efficiency and greater use. However, there is nothing in the situation which leads us to believe that increases in the rates will be required by many companies in order to enable them to earn their operating expenses and fixed charges and a fair

return upon the capital invested. We look rather to a continued tendency towards the reduction in rates. Business conditions are improving and the indications are that there will be during the coming year a sustained demand for the products.

During the last year, after conferences with parties interested, the Department extended, with some modifications, its reclassification of accounts for gas and electric companies to municipal lighting plants.

SALE OF SECURITIES ACT.

This act became effective on August 26, 1921. During the period from that date to and including November 30, 1922, 1,194 brokers and 6,328 salesmen were registered. Fees for such registrations received and paid to the Treasurer of the Commonwealth amounted to \$72,356. As was stated in our last report, this act materially increased the duties and responsibilities of this Department. In the twelve months from December 1, 1921, to November 30, 1922, the Department has carried on this work with an increase of three in its permanent force of employees. These employees consisted of an assistant inspector and two stenographers. Frequent hearings and much consideration have been given to matters involved in the administration of the act.

The sale in this Commonwealth of securities of corporations, trusts, associations, or other bodies of an aggregate par value of \$178,489,995 has been stopped, either by direct action of the Commission in making findings that the sale of such securities was fraudulent or would result in fraud, or by the voluntary withdrawal from sale of such securities by the corporations, trusts, associations, or other bodies issuing the same. Such voluntary withdrawals have in most instances been as a result of investigations by the Department or by reason of its requirement of information additional to that in its possession or disclosed by the statements filed with it. In other cases securities have been withdrawn because the persons through whom the information was required were not ready to furnish it within the time required, and therefore agreed that no sales should be made pending the filing of the information. During the year 89

formal hearings have been held on complaints arising in connection with the sale of securities or the manner in which brokers or salesmen conducted their business. The registrations of 3 brokers and 213 salesmen have been cancelled on the register by findings of the Commission. The registrations of 5 brokers and 20 salesmen have been cancelled in accordance with their requests. In addition to the formal hearings mentioned above, over 1,000 complaints have been taken up and adjusted. These complaints did not result in formal hearings.

The act has been in effect for a sufficient time to enable us to form some judgment in relation to it. On the whole we think it has served a useful purpose. No machinery that can be devised will prevent all fraud in the sale of securities or compel all brokers or salesmen to conduct their business in a proper manner. To a large degree, however, the sale of fraudulent securities has been eliminated and the act has been instrumental in preventing fraud. The provisions of the law compelling brokers and salesmen to register have gone far toward curbing the business of promoters of worthless and fraudulent securities in the Commonwealth.

The sale of securities by brokers and promoters outside of the Commonwealth to residents in this Commonwealth by the use of the mails is beyond the power of this Commonwealth to control. As a consequence, promoters outside the Commonwealth continue to flood Massachusetts with literature sent through the mails painting in glowing terms the merits of securities that could not be sold within the Commonwealth. This is a subject with which Congress alone can deal. Legislation is now pending in Congress to this end.

In our judgment the enactment of the Sale of Securities Act has not interfered with legitimate business nor imposed any undue burden thereon. Rather it has proved to be beneficial to legitimate business. This is evidenced by the co-operation which has been extended to the Commission by various Chambers of Commerce and Boards of Trade throughout the Commonwealth and by the Boston Better Business Commission, which has been and will be of great value and assistance to the Department in the performance of its duties in administering the provisions of the act.

In our last report we urged that attempts be made on the part of various parties interested to try to educate the general public as to those securities which are safe and desirable investments. Many of the existing frauds in the sale of securities can and will be prevented if people who are solicited to buy securities of which they know nothing will consult their local bankers or the secretary of their Chamber of Commerce or Board of Trade or the Boston Better Business Commission before they purchase.

CAPITAL STOCK AND BONDS.

Thirty-two applications for approval of an issue of stock or bonds have been decided during the year which ended November 30, 1922. The par value of the securities asked for was \$58,769,250, and the par value of the amount approved was \$58,079,250.

The following table shows the securities approved by the Commission for the several companies applying therefor, giving both the par value of the capital stock and the issue price thereof, determined as required by law. In the Appendix will be found the decisions of the Commission relating thereto, assigning the reasons therefor.

COMPANY.	CAPITAL STOCK APPROVED.			Bonds approved at Par.	Date.
	Amount at Par.	Issue Price.	Value at Issue Price.		
Attleboro Steam and Electric Company	\$37,000	\$135	\$49,950	-	Feb. 17

West End Street Railway Company .	-	-	-	2,700,000	Dec. 23

JITNEYS.

The use of the so-called jitneys or jitney bus in competition with the street railway lines has not increased during the last year. It seems safe to say that such competition is no longer serious in this Commonwealth. To some extent the street railway companies have adopted this method of transportation to supplement the street railway service furnished by them, and it is reasonable to expect further extension of this service.

LEGISLATIVE INVESTIGATIONS.

On June 13, 1922, the House of Representatives adopted an order that the Department be authorized and directed to examine and report to the boards of trustees of the Boston

Elevated Railway Company and the Eastern Massachusetts Street Railway Company its determination of the proper valuation of the street railway lines in the Hyde Park district of the city of Boston upon which rental should be based, and the amount of rental which should properly be paid therefor. Hearings were held upon the above order and a report as therein directed was submitted to the trustees of the said railway companies on January 2, 1923.

Chapter 483 of the Acts of 1922, being entitled "An Act to provide Additional Space in the Harvard Square Station of the Cambridge Subway", provided that the Department might make such alterations in or extensions to the Harvard Square station of the Cambridge subway as it might deem necessary or desirable for the convenience or safety of passengers using said station, and that said Department should have the power and authority to act in the name and on behalf of the Commonwealth in connection therewith. Under authority of said chapter the Department asked for bids for the extension of the Arlington loading platform of the Harvard Square station of the Cambridge subway, which bids were opened at noon, November 29, 1922. On December 1, 1922, the contract was awarded to Coleman Brothers, Inc. The contract provides for the completion of the work on May 21, 1923.

Chapter 55 of the Resolves of 1922, entitled "Resolve providing for an Investigation by the Department of Public Utilities of Transportation Facilities within the Metropolitan District", provided that the Department should investigate:

1. Better transportation facilities between the city of Boston and the cities of Chelsea, Revere, Everett and Malden.
2. Better transportation facilities between the West Roxbury and Hyde Park districts of the city of Boston and the city proper.
3. The extension of rapid transit facilities in the Dorchester district of the city of Boston.

The Department was further directed to investigate the subject matter of all petitions and accompanying bills affecting the Boston Elevated Railway Company filed in the General Court during the year 1922 and referred to the next annual session which provided for the fixing of fares, for the remission

of taxes or subway rentals, reimbursement of the advances paid by cities or towns in 1919 to meet the deficit in the cost of service, and other similar obligations, for public ownership or for any other changes consistent with existing contracts affecting fares, cost of service, ownership or management, and to report the results of its investigation and its recommendations to the General Court not later than the first Wednesday in January, 1923. Hearings were held on the subject matter referred to in said resolve and a report thereon was transmitted to the General Court on January 2, 1923.

LEGISLATION RECOMMENDED.

1. *Rates of Gas and Electric Companies.*

In order to remove a manifest discrimination as between different gas and electric companies in the manner of handling rate questions, and in order that such rate questions affecting gas and electric companies may be placed upon practically the same basis as are those of other companies under our jurisdiction, we recommend appropriate legislation without setting forth the same reasons as appeared in our two previous reports.

2. *Officers and Agents of Public Utilities in Behalf of Such Utilities, entering into Contracts with themselves.*

We still feel that there is a manifest evil in certain contracts entered into by officers of public utility companies with certain other concerns of which they are also officials. We renew our recommendation of the two previous years for legislation aimed to prevent such practices.

3. *Public Utilities depositing Funds with Private Banking Houses.*

Certain facts have come to our attention the past year which have more deeply impressed upon our minds the danger of the custom of certain public utility companies in keeping large sums of money upon deposit with private banking houses. We again recommend the passing of legislation restricting such deposits.

4. *Entry on Premises to examine Meters.*

It has come to our attention that section 116 of chapter 164 of the General Laws of 1921, relating to the right of entry on premises to examine and remove meters, applies only to gas companies. It would seem proper to extend this provision to electric companies as well.

5. *Penalty for Failure to make Amended Return.*

While there is now a penalty for the failure of a company to make its annual return, or to make it on time, there is sometimes difficulty in getting such a company to correct its return within a reasonable time when found defective. We therefore recommend a bill, which provides a penalty for failure to make such an amended return within a certain specified time.

6. *Penalty for Failure to make Returns by Municipal Lighting Plant Officers.*

We feel that the penalty for failure to file returns now imposed upon officials of gas and electric companies should be extended to officers of municipal lighting plants. The latter officials have in some cases ignored the plain intent of the requirement of the law.

7, 8, 9. *Street Railway and Motor Vehicle Legislation.*

While the street railway situation in the Commonwealth is materially better than it was at the time of our special report in April, 1921, we feel that the legislation then recommended may be useful to some cities and towns in the solution of their transportation problems. For the reasons set forth at length in our report, House No. 1495 of 1921, and renewed in our annual report of 1922, House, No. 133, we again recommend the passage of the legislation.

Another year's experience in the administration of the Sale of Securities Act leads us to renew some of our recommendations of last year which failed of enactment.

10. *Sale of Securities after filing of Notice of Intention.*

A considerable number of doubtful securities which have been investigated after complaints, and some of which have been subsequently barred from sale, have been sold in large quantities during the seven days' period allowed by the law to intervene between the filing of a notice of intention to offer for sale and the required statement. We feel that some power to suspend such sales during said intervening period should be given the Department.

11. *Further Investigation of Doubtful Securities.*

We still feel that in a certain number of cases the Commission should have authority to require accountants' or engineers' reports at the expense of the companies. The law may have so intended, but it should be made clear in the text.

12. *Written Evidence of Registration as Broker or Salesman.*

We are still of the opinion that while the receipt given by the Department for the fee paid the Commonwealth should not be shown indiscriminately, yet it ought to be carried by the registrants and shown to a police officer, authorized to make arrests, when requested by him.

13. *Arrest by Officer without a Warrant.*

We also feel that officers should have the right to arrest a person without a warrant whom he believes to be violating the Sale of Securities Act. Such a provision would seem necessary in many cases of so-called transient salesmen and has ample precedent in the case of many other misdemeanors.

14. *Information required in Case of Sale of Exempted Securities.*

Our experience has confirmed us in the opinion that the authority to require certain information from dealers in exempted securities should be given to the Commission.

15. *Relative to Requirements for the Sale of New Securities.*

The last paragraph of section 4 of the act provides that the Commission may, to such extent as it deems reasonable, accept in lieu of the statement required to be filed under the provisions of said section a reference to recognized sources of information selected by the Commission containing such information and particulars as it deems sufficient. No such provision is contained in section 5 of the act. The Commission feels that a similar provision should be included in section 5, so that a reference to recognized sources of information selected by the Commission might be accepted in lieu of the statement required by said section.

16. *Relative to Registration of Brokers and Salesmen.*

It has developed that a person whose registration has been revoked as a broker is entitled under the provisions of the law to become registered as a salesman and *vice versa*. This does not seem proper within the contemplation of the framers of the act. Hence we recommend an amendment to section 8 covering this point.

17. *Repeal of Provision relative to Clerk and Assistant Clerk.*

Section 6 of chapter 25 of the General Laws is practically obsolete. It should have been repealed or omitted at the time of the recent codification. At the present time such a provision can only lead to embarrassment in the employment of unnecessary persons and a resulting increased expenditure by the State. We recommend the repeal of this section.

VIOLATIONS OF LAW.

The following cases of violation of the statute have occurred since the last annual report: by the Plymouth Gas Light Company, in distributing gas of a lower calorific standard than that prescribed by the Board of Gas and Electric Light Commissioners; by the Newburyport Gas and Electric Company, in distributing gas containing more than the ten grains of ammonia per 100 cubic feet; by the Cambridge Gas Light Company, in

distributing gas containing more than thirty grains of sulphur per 100 cubic feet; and by the Old Colony Gas Company and the West Boston Gas Company, in distributing gas containing sulphuretted hydrogen.

ACCIDENTS.

Gas and Electric.

The increase in number of accidents caused by gas, both fatal and non-fatal, is a matter of concern. The accidents are in large part due to the improper use of appliances and flexible tubing. But for the convenience obtained by the proper use of flexible tubing we would be prepared to recommend legislation which would prevent its use entirely in the burning of gas. Such a radical step at the present time would probably meet with pronounced opposition. Nevertheless, we believe that the time has arrived when legislation should be enacted which will control, so far as is practicable, the use of improper tubing and the improper use of appliances in connection with flexible tubing. After consultation with the authorities of the city of Boston having charge of gas piping and the use of gas appliances, a bill has been prepared and submitted to the Legislature. The bill was not prepared in time to be submitted as a part of our report, but nevertheless the objects sought in the bill meet with our approval and we recommend its enactment into law.

Respectfully submitted,

DEPARTMENT OF PUBLIC UTILITIES.

HENRY C. ATTWILL, *Chairman*,
EVERETT E. STONE,
DAVID A. ELLIS,
HENRY G. WELLS,
LEONARD F. HARDY,
Commissioners.

DIVISION REPORTS.

ACCOUNTING DIVISION.

It is the duty of the Accounting Division to analyze and check the annual reports of the utilities under the supervision of the Department for the purpose of determining the accuracy of the figures as submitted, and also for the purpose of enforcing the regulations as prescribed by the classifications of accounts adopted by the Department. If any errors are found in the reports, it is necessary to see that they are corrected before said reports are finally accepted.

It is also the duty of the Accounting Division to check the expenditures made by the utilities on account of additions and betterments to property, and to inspect the physical property in order to see that the expenditures were made in accordance with the schedules as submitted.

During the last year it has been necessary to check the expenditures made by the Boston Elevated Railway on the property of the West End Street Railway Company since January 1, 1920, in order that the Boston Elevated Railway might adjust the accounts of the two companies previous to the consolidation. The expenditures made by the Boston Elevated Railway on its own property on account of additions and betterments were also checked in detail and the physical property was inspected.

It also became necessary to check the expenditures made by 23 gas, electric and water companies on account of additions and betterments to property, for which they desired to issue securities.

In addition to the above it is necessary for this Division to compile the statistical information which appears in the annual reports and to furnish additional statistical information of value to the Commission and to the general public.

During the year the accounts of the municipal gas and elec-

tric lighting plants were reclassified. A uniform system of accounts for said plants was prepared by the Accounting Division and adopted by the Department as of January 1, 1922. This classification was printed in book form and sent to the various plants. It was also necessary to design a new form of annual return which would be in accordance with the new classification.

In view of the fact that there appeared to be some laxity on the part of the managers of the municipal lighting plants in complying with the requirements of this uniform system of accounts adopted as of January 1, 1922, an assistant accountant visited the plants in the Commonwealth to inspect the books, and it was found that only a few had opened new books or set up the accounts as requested. It is therefore evident that a periodical inspection of both municipal plants and the privately owned companies must be made in order to see that the accounts are kept as prescribed.

ENGINEERING DIVISION.

During the year the division has investigated expenditures on account of additions and betterments by the Boston and Albany Railroad Company, and the Boston Elevated, West End and the Eastern Massachusetts street railway companies, the investigation including an examination of the accounts, the work done, and the additions made to the property.

Under chapter 55, Resolves of 1922, studies and reports were made on transportation facilities in Metropolitan Boston, including a study of the cost of street railway operation in the larger cities of the United States.

As directed by chapter 483 of the Acts of 1922, plans and specifications were prepared for the extension of the Arlington loading platform in the Harvard Square station of the Cambridge subway, the contract for the work being awarded to Coleman Brothers, Inc., of Boston, and construction was started on December 8.

Pursuant to an order of the House of Representatives, adopted June 13, 1922, a valuation of the property in the Hyde Park district of Boston owned by the Eastern Massachusetts Street Railway Company was made.

A traffic study was made in connection with the proposed Braves Field and Linden Street loops on the Boston Elevated Railway.

Plans and specifications were made for the proposed building and interlocking plant to be built in East Boston under chapter 494 of the statutes of 1921.

Under authority of chapter 527 of the Acts of 1914 about seven days were spent in connection with the elimination of grade crossings for the Department of the Attorney General.

During the year there has been little new construction and only necessary bridge repairs have been made. Restrictions were placed on two bridges over which street railway cars operate. These two bridges are to be rebuilt in 1923. Plans for nine new bridges to carry street railway traffic have been submitted for approval.

In connection with railroad and railway signals 11 interlocking towers and 25 automatic signals were inspected. Plans for six changes in signals were checked and approved, and one automatic stop investigated. During the year there were three collisions and one derailment that were investigated and reports thereof made.

GAS AND ELECTRIC DIVISION.

In connection with petitions for the approval of securities by gas, electric and water companies, detailed investigations were made of the cost of property added by two companies, appraisals were made of the property of three others, and about thirty reports were submitted to the Commission principally in the course of its administration of the compulsory supply statute. A critical analysis has also been made of all of the complaints against gas and electric companies which have been received since the creation of this Department.

COMPLAINTS.

The custom of dealing with complaints concerning gas, electric, and privately owned water companies informally when possible has been continued during the year. There have been 566 applications which have been listed as complaints, in addition to several hundred others, of which no record was made as they required only passing attention. The division of

complaints between the gas, electric, and water supply companies (given in the Commission's report) follows about the same relative proportion as last year, and the total number, although it has not increased over that for last year, has not significantly diminished. Forty of these applications were assigned for formal hearing by the Commission in accordance with the terms of the compulsory supply statute, — ten times the number occurring in any previous year.

The amount of time which has been required during the last few years for both the formal hearings and the informal treatment of complaints has caused considerable thought to be given to the problem which is presented to the Commission by the complaints and to the aspects of the companies' management which they reflect. The conclusion is that over twice as much work is being required of the Department as good management on the part of some companies would warrant, and that the informal adjustment of complaints against some of these companies has necessitated the performance by the Department of field and office work which the companies should perform themselves. It is evident that a management which allows a state department to take the place of an adequate organization of its own is encouraging the public to seek elsewhere than in the company's management a solution of its service problems.

The nature of the complaints which elude the companies and reach this Department is given in the following analysis of those which have reached the Department during the past year:

	Gas.	Electric.	Water.
Quality of the supply	12	7	—
Large bills, simply	65	22	1
Errors or irregularities in billing	14	—	—
Prepayment meters, shortage or robbery	9	—	—
Applications resulting in meter tests only	20	16	—
Supply shut off	24	9	1
Service required	27	222	4
Explanation of rates or their application	29	29	2
Explanation of deposit requirements, conditions of service, etc.	8	10	—
Miscellaneous	14	20	1
Total	222	335	9

This analysis, although typical of the complaints which reach this Department from year to year, should not be considered as representing either the average of those which exceed the ability of companies in general to deal with, or an average of those which elude the ability of any particular company, because complaints from any company are not usually diversified but have characteristics peculiar to the particular management, and, moreover, complaints are not received regularly from most companies.

It is not possible to give within the limits of this report the detailed analysis which would show the peculiarities of the complaints coming from the several companies.¹ It may serve for illustrative purposes to mention four examples. Complaints against one company arise from the fact that the company's standard rules for service connections have not been complied with; against another the complaint is always that the special conditions for a supply proposed by the commercial department are unreasonable, although a mere reference to the general manager always serves to have the difficulty removed; in a third case the complaint is of the failure of the adjustment division but not of the commercial department; and in the fourth it is seldom the work in the adjustment division that is involved but usually the work of the commercial department.

That complaints are characteristic of only a few companies is shown by the records of the last three years. Of the hundred odd gas and electric companies in the State there are about one-quarter from which no complaint has reached the Department. From one-half of the companies the complaints are few and sporadic, none showing in some years, from one to three appearing in others, and averaging less than two complaints a year from companies of this group. These complaints are not especially serious, either on account of the amount of work which they involve or the difficulties which they present. From the other one-quarter of the companies come the large number of complaints, those which are of regular occurrence, and those which are a serious burden for the Department.

With this explanation the following list of the number of complaints from the companies in the latter group will show

¹ The data yielded by the analysis is available for the companies' inspection.

the possibility of distorting the preceding table so that it cannot be taken as a general average, or an average of any company's work:

Abington & Rockland	3
Adams	4
Amesbury Gas	6
Arlington Gas	15
Boston Consolidated Gas	74
Brockton Gas	7
Cambridge Electric	7
Cambridge Gas	11
Cape & Vineyard Electric	14
Charlestown Gas and Electric	14
Dedham & Hyde Park	9
East Boston Gas	15
Edison of Boston	200
Edison of Brockton	5
Greenfield Gas	1
Lawrence	7
Lowell Electric	13
Lynn Gas and Electric	4
Malden Electric	10
Malden Gas	24
Marlboro Electric	10
Newton & Watertown	8
North Adams Gas	4
Plymouth Electric	5
Quincy Electric	3
Southeastern Massachusetts	2
Spencer Gas	1
Suburban Gas and Electric	14
Weymouth Light and Power	4
Williamstown Gas	2
Woburn Gas	1
Worcester Electric	3
Worcester Suburban Electric	5

It is clear to us that a large proportion of the complaints which reach the Department can be cared for by the companies themselves. The frequently made assumption that complaints are more prevalent from electric companies than from gas companies, on account of an alleged greater activity of the former, or the assumption that the number of complaints varies in proportion to the size of the company, and that it further varies

inversely as the distance of the company from the offices of this Department, we have found to be inadequate. Complaints from gas and electric companies in the same town predominate from either; or the ratio of the number of complaints to the number of customers varies; or more or less complaints come from distant companies, as definite characteristics of their management may occasion. It is this fact — that complaints are characteristic of only part of the companies and that those complaints which do reach us are peculiar to the organization or operation of the separate companies — which indicates that they can be dealt with by the companies themselves when each company secures in rounded measure the ability which has been shown to exist to varying degrees in the several companies.

It is not possible to state the number or proportion of the unnecessary complaints which reach the Department because many complaints have not presented sufficient detail during the course of their informal treatment to reveal their history, and conditions are not suitable for its determination. In the cases which have come formally before the Commission, though, both parties have been present and heard, so that either in the discussion preceding the order or the terms of the order the nature of the complaint can be determined. A brief summary of the cases set for formal hearing is given in the following table:

COMPANY.	Grievance.	Conclusion.
Boston Gas . . .	Inordinate bills . . .	Dismissed.
Boston Gas . . .	Not responsible for bills . .	Complainant defaulted hearing.
Brockton Gas . . .	Old bill revived . . .	Dismissed.
Brockton Gas . . .	Extension wanted . . .	Agreement reached during hearing (not subsequently kept by the petitioner).
Cambridge Gas . . .	Charged with sheriff's fee . .	Supply ordered.
Cambridge Electric . .	Excessive bill for underground service.	Adjustment recommended.
Cambridge Electric . .	Separate service refused for new building.	Ordered.
Cape & Vineyard . . .	Extension refused . . .	Ordered under special conditions.
Charlestown Gas . . .	Underground extension refused; overhead offered.	Dismissed.
Charlestown Gas . . .	Underground extension refused; overhead offered.	Dismissed.
Danvers Municipal . .	Three-phase service refused .	Recommended.
Edison, Boston . . .	Extension refused . . .	Ordered.
Edison, Boston . . .	Old bills . . .	Settled during hearing.

COMPANY.	Grievance.	Conclusion.
Edison, Boston . .	Inordinate bills	Settled during hearing.
Edison, Boston . .	Underground service refused; overhead offered.	Recommended.
Edison, Boston . .	Extension refused	Recommended.
Edison, Boston . .	Extension refused	Granted during hearing.
Edison, Boston . .	Extension refused	Ordered.
Edison, Boston . .	Not responsible for bills . .	Dismissed.
Edison, Boston . .	Inordinate bills	Dismissed (settled after order).
Edison, Boston . .	Service refused over private property.	Dismissed.
Edison, Boston . .	Service refused	Ordered.
Edison, Boston . .	Underground extension refused .	Granted after hearing.
Edison, Boston . .	Underground extension refused; pole locations not granted.	Locations granted after hearing.
Edison, Boston . .	Extension delayed	Ordered.
Edison, Boston . .	Extension refused	Granted before hearing.
Edison, Boston . .	Customer's meter location disproved by company.	Dismissed.
Edison, Boston . .	Service over private property refused.	Supply granted before hearing.
Edison, Boston . .	Extension refused	Granted before hearing.
Edison, Boston . .	Extension refused	Granted before hearing.
Edison, Boston . .	Extension delayed	Hearing cancelled.
Edison, Boston . .	Extension refused	Granted before hearing.
Edison, Boston . .	Extension refused	Granted before hearing.
Edison, Boston . .	Extension refused	Granted before hearing.
Edison, Boston . .	Extension refused	Granted before hearing.
Edison, Boston . .	Charge for underground extension	Cancelled before hearing.
Greenfield Gas . .	Extension refused	Ordered.
Greenfield Gas . .	Extension refused	Ordered.
Leominster Electric .	Company's terms exorbitant .	Dismissed.
East Mountain Water .	No rebate for alleged inferior quality.	Dismissed.

It is expected that some complaints will continue to reach the Department, but it is hoped that the readiness of the Department to make a disinterested determination of the accuracy of customers' meters, to determine what constitute reasonable conditions for a supply in special cases, or that its action in maintaining a published schedule of rates will create a feeling of security which will encourage the public to transact its business with the companies themselves. Informal adjustments of complaints, except where full co-operation by the companies is given, will not be continued.

ELECTRIC METERS — TESTS.

Electric meters are tested only at the request of either the company or the customer, and the variation permitted by the statute is 5 per cent. Twenty meters were tested during the year ended November 30, 1922. Fees for testing amounted to \$47.50, and the services and expenses of the inspector for the work amounted to \$560.94. A summary of the results of the tests is given in the following table:

Summary of Electric Meter Tests for the Year ended November 30, 1922.

	AT ONE-FIFTH LOAD.		AT ONE-HALF LOAD.		AT FULL LOAD.	
	Fast.	Slow.	Fast.	Slow.	Fast.	Slow.
Within 2 per cent . . .	8	2	9	4	12	1
From 2 to 5 per cent . .	5	2	3	—	3	1
Over 5 per cent . . .	1	1	1	1	1	1
Total	—	19	—	18 ¹	—	19
Demand indicator (per cent) .	—	4.1	—	0.3	—	1.4

¹ One meter was not tested at one-half load.

INSPECTION OF GAS AND GAS METERS.

During the year ended November 30, 1922, 120,628 gas meters were inspected and 16 wet experimental meters and 4 meter provers calibrated. The sum of \$30,928.85 was collected and paid to the State Treasurer, as required by law; this sum includes \$30,715.85 fees for testing gas meters, \$47.50 for testing electric meters, and \$164.90 for interest and miscellaneous receipts.

There were 634 inspections made of the quality of gas supplied by the 55 companies and 4 municipalities. An inspection consists of the determination of four values, — calorific value, total sulphur, total ammonia, and the presence of sulphuretted hydrogen. The average total British thermal units was found to be 545.53; the law requires 528 Btu's per cubic foot. For the 634 inspections, 105 violations of some one of these four requirements were found.

Forty-six calorimeter thermometers were calibrated, main pressure surveys made in nine districts, and two investigations made of gas measurements between companies, involving calibration and testing of several types of station meters. A number of investigations was made of poor service, on complaint of consumers, and such work done as would determine the cause of the trouble.

The following is a summary of the records for the year ended November 30, 1922:

There were 425 accidents caused by gas and 79 by electricity. Of the gas cases 243 were fatal, 97 of them being suicides and 2 homicides. There were 182 non-fatal gas cases, 46 of them being with suicidal intention and 2 homicidal. Three of these non-fatal cases were company employees. Of the accidents caused by electricity 24 were fatal, 7 of them being company employees, and 55 cases were non-fatal, 33 being company employees.

RAILROAD AND RAILWAY INSPECTION DIVISION.

The following report shows the work performed by this division during the year ended November 30, 1922.

The number of complaints received in connection with railroad operation was 250, in connection with street railway operation, 69. These complaints were investigated and adjusted by this division, thus obviating the necessity of public hearings or conferences and the issue of orders or memoranda by the Department.

The number of inquests in cases of death by accident attended by inspectors was 158.

RAILROADS.

Locomotives.

The number of locomotive inspections made at various times was 4,899. In 3,719 inspections no defects were found. In 1,180 cases locomotives were found defective because of steam leaking so as to obscure the vision of enginemen, or were found to have defective boilers, wheels, spark arresters, or ash pans. These defects were called to the attention of the proper officials and remedied.

The number of special examinations of spark arresters and ash pans was 3,213.

During the year 24 new engines were put into operation in Massachusetts, all on the Boston and Maine Railroad.

Frog and Switch Blocking.

The number of pieces of foot blocking found to be missing or defective, called to the attention of proper officials and remedied, was 3,793.

Bridge Guards.

The number of bridge guards found defective, called to the attention of proper officials and remedied, was 2,165.

Steam Passenger Train Equipment.

The number of passenger coach inspections made during the year was 8,614. Of this number, 705 were found defective with reference to wheels, brakes, lighting, car seat frames, missing emergency tools, or because of untidy conditions.

Steam Freight Train Equipment.

The number of freight cars inspected and found to be in good condition was 3,095; found defective, 66. Caboose cars inspected and found without defects, 200; found defective, 16. Milk cars inspected, 68, of which none were found defective.

Passenger Stations.

The number of inspections of passenger stations made at various times, where stations were found to be in good or fair condition was 4,008. The number of stations found defective with reference to platforms, lavatories, or because of untidy conditions, and called to the attention of proper officials and remedied, was 140.

Accidents.

The number of fatal accidents to individuals on steam railroads investigated was 123. The number of serious personal injuries investigated was 178; crossing accidents investigated, 63; other accidents investigated, such as derailments and collisions, 111.

STREET RAILWAYS.

Certificates for Operation.

The number of inspections of new street railway tracks made as a preliminary to issuing certificates for operation was 21.

Street Railway Equipment.

During the year 8,401 car inspections were made, and in 7,563 cases no defects found. The number of cars found defective with reference to wheels, brakes, lighting, car seat frames, or because of untidy conditions, was 838.

Accidents.

The number of fatal accidents to individuals investigated was 77. The number of accidents caused by broken or loose wheels, broken journals and axles reported was 94; miscellaneous accidents investigated, such as collisions, personal injuries, and accidents caused by faulty operation, 131; accidents caused by spread rails, broken rails, defective special work, poor surface and alignment of track, 185.

Bridges.

The use of two highway bridges carrying street railway tracks has been restricted during the year. In one of these cases the street railway portion of the bridge has been rebuilt, and in the other case a new bridge is to be built early this coming year. A coal trestle at an industrial plant has been found to be in a dangerous condition and its use discontinued. This trestle is on a spur of a railroad which is operated by a street railway company.

During the year five highway bridges carrying street railway cars have been wholly or partially rebuilt. Many other bridges have been more or less repaired and some have been strengthened.

The following is a summary of the bridges which are now in use on the railroads and street railways in the State, and the inspections made by this division:

	Number of Bridges.	Number of Inspections.
Railroads, main line	1,514	1,577
Street railways, main line	895	942
Side tracks and private railroads	675	756
Total	3,084	3,275

Each one of the above 3,084 bridges has been inspected at least once during the year. The difference in the number of bridges and the number of inspections is due to some bridges having been inspected more than once, and also to the fact that many small bridges not on the lists were inspected.

RATE AND TARIFF DIVISION.

Tariffs containing changes during the twelve months ending November 30, 1922, were: in freight service, on steam roads, 1,177; on electric lines, 43; in passenger service, on steam roads, 211; on electric lines, 29; express tariffs, 55; telephone and telegraph, 18, making a total of 1,533 tariffs.

The only general changes in tariffs during the year have been a reduction approximating 10 per cent on the steam freight tariffs and a new basis for the switching territory about Boston.

Although there have been numerous local changes in the freight commodity tariffs there has been no change in the general basis.

Some reductions have been forced upon the steam railroads by the increasing motor competition continuing the policy started the previous year and mentioned in the last report.

TELEPHONE AND TELEGRAPH DIVISION.

The increase from 1,977 cases in 1921 to 2,348 cases the past year requiring specific treatment left little time for service inspection work.

Two exceptions were the case of the Heath Telephone Company, covering the eastern section of the Berkshires, and of the New England Telephone and Telegraph Company on Nantucket Island.

In the Heath company case, a complete survey of the plant and switchboard conditions was made by an inspector from this division. As a result of his report a substantial portion of that company's plant was either repaired or rebuilt, so that at the present time the communities covered by the Heath company are getting a very much improved grade of telephone service.

In the Nantucket case, several changes of existing lines were made and several miles of new wire strung, which made it possible to relieve a very undesirable situation.

Like the other years since the war, a large portion of the cases that came to the division had to do with delayed installation of service, and in a very large percentage of the cases service was secured through the work of the inspection force of the division.

ABATEMENT OF SMOKE.

It has not been found necessary during the present year to introduce any changes in the method of conducting the work imposed upon this division by the provisions of chapter 651 of the Acts of 1910 for the regulation of smoke in Boston and vicinity. Periodic and systematic inspections throughout the district have been continued. Plant inspections have been frequent and have been made whenever the amount of smoke noted, whether a violation or not, seemed to indicate a change in the working conditions. This method appears to have resulted in a further decrease in the number of violations detected during the year.

Although some English coal has been burned in the district, very little trouble has been experienced on this account. Several of the smaller plants have been forced to use it for short periods to carry them over until they could obtain their regular grade of American coal. More plants have changed their equipment to burn oil, and, after being properly adjusted, have given no trouble. The item of violations on stationary plants where oil is the fuel has been continued, and the total shows a material reduction over the total for last year.

The marine violations have also shown a reduction over the number reported a year ago, and investigation has shown most of these to be on oil-burning vessels.

All complaints received by the Department have been promptly investigated and if found to be due to the emission of smoke not prohibited by law were so reported to the complainants, with the suggestion that they take the matter up with their local board of health. In the other cases, suggestions for overcoming the difficulties have been offered, and after a reasonable time further observations made to see that the conditions had been corrected. The number of complaints received by the Department is the smallest for any year since this work was started.

It has not been found necessary to give any public hearings or to take further action on any of the formal orders issued in previous years.

The following comparative tabulated summary shows the work of this division for the year ending November 30, 1922, and the four preceding years. Attention should be directed to the fact that again this year, of the total observations, those in which violations were noted for all classes of stack — stationary, locomotive and marine — are less than 1 per cent.

Recorded observations:	1918.	1919.	1920.	1921.	1922.
Stationary stacks	75,047	82,021	85,971	89,216	89,883
Locomotive stacks	25,931	29,508	33,133	34,468	35,010
Marine stacks	2,297	2,487	2,607	2,630	2,648
Total	103,275	114,016	121,711	126,314	127,541
Observations recorded showing the emission of smoke in excess of the amount allowed by the act:					
Stationary stacks	672	448	384	226	148
Locomotive stacks	92	114	82	75	41
Marine stacks	7	6	19	24	11
Total	771	568	485	325	200
Percentage of observations in which violations were found:					
Stationary stacks90	.55	.45	.25	.16
Locomotive stacks35	.39	.25	.22	.12
Marine stacks30	.24	.73	.91	.42
Recorded observations of stationary stacks emitting smoke in excess of the amount allowed by the act, due to the carelessness of those immediately responsible for their operation	500	417	290	125	87
Recorded observations of stationary stacks emitting smoke in excess of the amount allowed by the act, due to overloading the plant	39	19	19	9	4
Recorded observations of stationary stacks emitting smoke in excess of the amount allowed by the act, due to the fuel situation	126	12	43	10	-

	1918.	1919.	1920.	1921.	1922.
Recorded observations of stationary stacks emitting smoke in excess of the amount allowed by the act, burning fuel oil	-	-	32	82	57
Stationary stacks upon which recorded observations have been made may be classified as follows:					
Public service	137	139	139	142	140
Manufacturing plants	701	751	784	807	810
Office buildings	610	685	732	767	795
Residences	9	13	16	18	16
Total	1,457	1,588	1,671	1,734	1,761
Stationary stacks upon which recorded observations showed smoke emitted in excess of the amount allowed by the act may be classified as follows:					
Public service	33	22	23	26	18
Manufacturing plants	104	136	119	69	47
Office buildings	80	43	50	42	32
Residences	-	-	-	-	-
Total	217	201	192	137	97
Number of stacks found after first notice or visit of chief inspector to have ceased emitting smoke in excess of the amount allowed by the act	118	113	121	88	63
Additional number of stacks so found after further notices or visits	95	87	68	47	34
Number of stacks from which the emission of smoke contrary to the requirements of the act had been observed and had not ceased at the close of the year:					
Public service	2	-	-	1	-
Manufacturing plants	2	1	2	1	-

The Commonwealth of Massachusetts

GAS, ELECTRIC AND WATER SUPPLY STATISTICS.

Returns for the year ended December 31, 1922, have been received from fifty-four gas, fifty-four electric and forty-six water supply corporations, five persons, associations or manufacturing companies doing a gas or electric business, and one educational institution, one manufacturing company and one person supplying water commercially; also, for the fiscal year 1921, from forty-one municipalities doing a gas or electric lighting business.

J. D. Gregory, Princeton, ceased the manufacture of acetylene gas at the end of 1921. There are now no persons or companies engaged in the manufacture of acetylene gas making returns to the Department.

On February 3 the name of the Tyngsboro Electric Light Company was changed to the Middlesex County Electric Company. This company has acquired the property of the Pepperell Electric Light and Power Company. On October 28, 1921, the latter company was dissolved by decree of the Supreme Court, upon the petition of the Attorney General.

On February 17 the Commission authorized the purchase by the Boston Consolidated Gas Company of the property and franchise of the East Boston Gas Company and the Newton and Watertown Gas Light Company, and on May 1 the consolidation was carried out.

The Commission approved on April 28 of the sale by the Worcester County Gas Company to the Spencer Gas Company of the mains through which the former company has supplied gas in the towns of Warren, Brookfield, North Brookfield, East Brookfield, West Brookfield, and Leicester.

On September 13 the name of the Worcester County Gas Company was changed to the Palmer Gas Company.

The Massachusetts Transmission Electric Company was organized on May 19 under chapter 164 of the General Laws, and on August 24 the Commission approved an issue of stock by this company for the purpose of financing in part the construction of a high-tension transmission line from a point on the Massachusetts-Rhode Island state line in the town of Seekonk, through said town of Seekonk, the city of Attleboro and the town of North Attleborough to a point on the Massachusetts-Rhode Island state line in North Attleborough. The proposed line connects at both points at the state line with the transmission line of the Blackstone Valley Gas and Electric Company, a Rhode Island corporation, and constitutes the connecting link of a line between the cities of Pawtucket and Woonsocket.

By chapter 436 of the Acts of 1922, the Thorndike Company was authorized to supply water in the village of West Warren and made their first report this year.

The following compilations of statistics are from the several returns:—

GAS COMPANIES.

The following table shows the corporate names of the gas companies in active operation, and the names of the persons and corporations other than gas companies making and selling gas, on the thirty-first day of December, 1922, with the localities supplied:—

CORPORATE NAME.	Localities supplied.
Adams Gas Light Co.	Adams.
Amesbury and Salisbury Gas Co.	Amesbury, Salisbury.
Amherst Gas Co.	Amherst, Pelham.
Arlington Gas Light Co.	Arlington, Belmont, Winchester.
Athol Gas and Electric Co.	Athol.
Attleboro Gas Light Co., Corporation	Attleboro.
Beverly Gas and Electric Co.	Beverly, Danvers.
Blackstone Electric Light Co.	Blackstone.
Boston Consolidated Gas Co.	Boston, Brookline, Chelsea, Milton, Newton, Waltham, Watertown, Wellesley, Weston.
Brockton Gas Light Co.	Brockton, Avon, Bridgewater, Canton, East Bridgewater, West Bridgewater, Holbrook, Stoughton, Randolph, Sharon.
Cambridge Gas Light Co.	Cambridge, Somerville (in part).
Charlestown Gas and Electric Co.	Boston (Charlestown District), Everett (in part), Medford (in part), Somerville (in part).
Citizens' Gas, Electric and Power Co.	Nantucket.
Citizens' Gas Light Co.	Quincy.
Clinton Gas Light Co.	Clinton.
Dedham & Hyde Park Gas & Electric Light Co.	Dedham, Hyde Park.
Easthampton Gas Co.	Easthampton.
Fall River Gas Works Co.	Fall River, Somerset.
Fitchburg Gas and Electric Light Co.	Fitchburg.
Gardner Gas, Fuel and Light Co.	Gardner.
Gloucester Gas Light Co.	Gloucester.
Greenfield Gas Light Co.	Greenfield, Turners Falls.
Haverhill Gas Light Co.	Haverhill, Groveland, Merrimac.
Ipswich Gas Light Co.	Ipswich.
Lawrence Gas Co.	Lawrence, Andover, North Andover, Methuen.
Leominster Gas Light Co.	Leominster, Lunenburg.
Lexington Gas Co.	Lexington.
Lowell Gas Light Co.	Lowell, Chelmsford, Dracut, Tewksbury.
Lynn Gas and Electric Co.	Lynn, Lynnfield, Marblehead, Nahant, Saugus, Swampscott.
Malden and Melrose Gas Light Co.	Malden, Melrose, Everett (in part), Medford (in part), Stoneham, Reading.
Marlboro-Hudson Gas Co.	Marlborough, Hudson, Maynard, Southborough, Stow, Gleasondale.
Milford Gas Light Co.	Milford, Hopedale.
New Bedford Gas and Edison Light Co.	New Bedford, Acushnet, Dartmouth, Fairhaven.
Newburyport Gas and Electric Co.	Newburyport, Newbury.
North Adams Gas Light Co.	North Adams, Clarksburg.
Northampton Gas Light Co.	Northampton.
North Attleborough Gas Light Co.	North Attleborough, Plainville.
Norwood Gas Light Co.	Norwood.
Old Colony Gas Co.	Abington, Braintree, Hingham, Rockland, Weymouth, Whitman.
Otis Co. ¹	Ware.
Palmer Gas Co.	Palmer, Monson, Thorndike, Three Rivers.
Pittsfield Coal Gas Co.	Pittsfield, Dalton, Lee, Lenox.
Plymouth Gas Light Co.	Plymouth, Kingston.
Salem Gas Light Co.	Salem, Peabody.
Spencer Gas Co.	Spencer, W. Brookfield, East Brookfield, Warren, Leicester, North Brookfield, West Warren, Brookfield.
Springfield Gas Light Co.	Springfield, Agawam, Chicopee, East Longmeadow, Longmeadow, Ludlow, South Hadley, West Springfield.
Suburban Gas and Electric Co.	Revere, Winthrop.
Taunton Gas Light Co.	Taunton, Berkley, Dighton, Mansfield, Norton, Raynham.
Webster and Southbridge Gas and Electric Company	Dudley, Southbridge, Webster.
West Boston Gas Co.	Ashland, Framingham, Natick.
Williamstown Gas Co.	Williamstown.
Woburn Gas Light Co.	Woburn.
Worcester Gas Light Co.	Worcester.

¹ Manufacture of gas a minor portion of business.

General Balance Sheet.

The assets and liabilities of the gas companies and the gas companies doing an electric business as returned on December 31, 1922 are as follows:—

ASSETS.	
Cost of plant and general equipment (gas)	\$82,714,939 22
Cost of plant and general equipment (electric)	25,342,346 76
Miscellaneous physical property and other investments	1,116,722 17
Current Assets	13,298,007 38
Reserve funds	214,344 21
Prepaid accounts	329,716 50
Unadjusted debits	925,713 45
Grand total	\$123,941,789 69
LIABILITIES.	
Capital Stock	\$58,998,875 00
Premium on Capital Stock	20,377,946 45
Bonds and Coupon Notes	11,713,500 00
Current liabilities	14,658,589 39
Accrued liabilities	1,284,952 61
Unadjusted credits	1,724,268 53
Reserves	5,727,779 93
Appropriated surplus	1,940,107 95
Profit and Loss	7,515,769 83
Grand total	\$123,941,789 69

INCOME AND EXPENDITURES.

The total income of the gas companies from gas operations for the year ended December 31, 1922 was \$32,637,962.64 and the total expenditures (exclusive of dividends) for the same period were \$27,351,177.17 leaving a net surplus of \$5,286,-785.47 to be added to the surplus of previous years.

The sources of total income and the amount derived from each source are shown in the following table:—

REVENUES.	
Revenue from sale of gas	\$32,335,288 86
Revenue from miscellaneous operations	53,198 87
Miscellaneous non-operating income	249,474 91
Total revenues	\$32,637,962 64

The items of total expenditures are shown in the following table:—

EXPENDITURES.	
Total operating expenses	\$22,959,163 33
Uncollectible operating revenues	121,447 37
Taxes assignable to gas operation	3,099,385 79
Interest on bonds and notes	1,041,378 39
Miscellaneous deductions	129,802 29
Total expenditures	\$27,351,177 17
Income balance transferred to profit and loss	\$5,286,785 47

Report of the Gas Inspection Division.**GAS INSPECTION.**

During the year ended November 30, 1922 this Division made 633 routine inspections of the gas supplied throughout the State. All companies and municipalities supplying fifty or more consumers are subject to this inspection.

The standards for quality require a calorific value of not less than 528 British thermal units per cubic foot of gas, do not permit more than thirty grains of total sulphur or ten grains of ammonia and no sulphuretted hydrogen. There were 107 violations of some one of these requirements during the year.

A summary of the tests for each company is given in Table 1 and details of the violations are given in Tables 2, 3, 4 and 5 following.

¹ Municipal plant.² Subject to fine for three consecutive violations.

The results show that 4.1% of the determinations made of quality fell below the standard; this is an improvement over the preceding year when there was a failure of 5.5%. The difference between the highest and lowest Btu tests for all the companies averaged 41.2 Btu's. Forty-four companies kept the difference between the highest and lowest Btu's below 50 Btu's as shown in Table 6 following.

	Btu's.
Average of all tests	545.5
Highest average of any company	724.0
Lowest average of any company	527.9
Highest single test	753.0
Lowest single test	458.0
Average difference between highest and lowest tests for each company	41.2

12	20-30
16	30-40
9	40-50
3	50-60
7	60-70

1 each of 88, 89, 90, 97, 108 Btu's.

There were three calorimeters installed during the year, at Amesbury, Amherst and Middleborough; eight stations were remodeled so as to make the instruments and attachments more nearly conform to the "standard installation," adopted November, 1919.

As many of the calorimeter installations have been in use for a number of years, an examination and re-calibration of the meters and thermometers has become desirable. Sixteen wet experimental meters were re-calibrated. There were found only slight variations from the original calibrations although some meters needed cleaning and repairing. With the thermometers, however, the change was more noticeable. Forty-one thermometers for use in the calirometers were calibrated during the year of which number nineteen were re-calibrations. The variations from the true temperature were, in some instances, as high as 0.34°, an amount which would cause a difference of some 2½% or about 12 Btu's in a 528 Btu gas. In the re-calibration of the thermometers, it was found that the average correction was 0.02° greater — that is that the mercury stood 0.02° higher than it did at the date of the last calibration. This may be accounted for by the shrinkage of the bulb which drives the mercury higher up the stem. All thermometers are supposed to be "aged" before calibration of the stem. But the shrinkage may go on for years and in the case of fine thermometers can only be detected by frequent calibration against a standard thermometer.

The "standard" thermometer in use by this office is one which has been calibrated by the Bureau of Standards at Washington at a period so recent that the change, if any, will be less than the error of observation. Changes in the thermometers of as high as 0.08° in one year have been noted but that is unusual, the average being about 0.02°. The change is not always uniform at the various temperatures. In one case, the change ranged from 0.00 at 66° to 0.09 at 105°. In still another thermometer the change was comparatively uniform varying from 0.04 at 65° to 0.05 at 90°. In a few cases, the change was in the opposite direction, but these were comparatively rare cases and the changes were small.

GAS METER INSPECTION.

The law provides that all meters used to measure gas to consumers must be inspected and, if correct, sealed before being used. Also meters in use shall be re-inspected on complaint of the consumer or gas company.

There were 120,628 meters of all classes tested during the year; 118,724 of these were new or repaired meters and 1,904 "complaint" meters. The law allows a tolerance of two per cent variation from the standard measure for purposes of sealing. Of the new and repaired meters, 231 failed to pass inspection and were not sealed. There were tested 17,279 meters of the prepayment type; in this meter an attachment is arranged to shut off the gas supply when a predetermined amount of gas has been delivered. This attachment is not inspected by the department but only the accuracy of gas measurement by the meter, in the usual way.

The following table shows the income from fees for meter testing; these fees and other income were paid to the State Treasurer monthly:—

Net income				<u>\$6,454 37</u>

Of the 1,904 complaint meters, 11 would pass gas but would not register. The remaining 1,893 meters had an average error of 2.18 per cent fast. The average error of the 1,017 fast meters (those registering at a rate exceeding the 2 per cent allowed by law) was, for last year, 4.75 per cent; of the slow meters, the average error was 7.46 per cent. The table below gives an analysis of the tests of these meters.

¹ \$132.80 fees not paid during year.

TABLE 8. — *Analysis of the Accuracy of Certain Meters tested by the Gas Inspection Division during the Year ended November 30, 1922.*

2 to 5 per cent	728	84	Correct meters 732
5 to 10 per cent	271	43	Fast meters 1,017
10 to 15 per cent	20	8	Slow meters 144
15 to 20 per cent	2	3	Indefinitely slow 11
20 to 50 per cent	—	4	
65 per cent	—	1	Total tested 1,904
66 per cent	—	1	

The following table gives a summary of complaint meter testing for the present and the preceding four years:—

TABLE 9. — *Analysis of the Accuracy of Meters tested on Complaint by the Gas Inspection Division for the Past Five Years.*

[The total number includes all meters tested. The calculations, however, are based only on the meters which registered.]

YEAR.	Total Number.	Average Error of All Meters (Fast).	Percentage of Fast Meters.	Average Error of Fast Meters.	Percentage of Slow Meters.	Average Error of Slow Meters.	Percentage of Legally Correct Meters.
1918	700	1.60	42.67	4.49	6.61	7.58	50.72
1919	1,809	1.96	49.72	4.56	6.93	8.02	43.35
1920	1,729	1.58	47.45	4.65	7.92	9.98	44.63
1921	2,513	1.77	47.94	4.56	7.72	8.53	44.34
1922	1,904	2.18	53.40	4.75	7.57	7.46	38.45

Development Work.

During the year, work other than routine inspection has been done and the following cases are typical of this class of activity.

The Brockton Gas Light Company sells gas to the Norwood Gas Company, the latter acting as a distributing and not manufacturing company. Similarly, the West Boston company sells to the Marlboro-Hudson Company. Question arising as to the fair and proper method of adjusting the charges led to appeals to this Division. As the conditions in the two cases were different, different methods of handling were used. The Norwood company measures the gas it buys after the line pressure of 5-8 lbs. is reduced to 4 inches; the Brockton company sells, by the register of a battery of dry meters at Canton, gas under pressure; suitable reduction factors are used to give the gas volumes in terms of free gas at 60° and 30''. Many tests and comparisons were made to determine the relative accuracy and capacity of the meters. In the case of the West Boston, Marlboro-Hudson companies, an electric recording meter was installed at the Framingham-Southboro town line. As the high pressure gas feeds the Marlborough district as well as the holder, it was not possible to re-measure the gas in Marlborough; so an orifice meter was installed and used as a check on the electric meter before the latter was put into service. This orifice meter can be used at any time for a check test of the continued accuracy of the electric meter.

The Medical Examiner for Suffolk County, Southern District, brought to the attention of this Division a fatal case of gas poisoning in Jamaica Plain. On examination, the poisonous atmosphere was found to have been caused evidently by the use of an antiquated gas water heater.

Similarly, a call from the Building Commissioner of Winchester led to an examination of the premises where occurred a non-fatal case of poisoning, several people being affected. A fair deduction led to the coal fired house heating plant as the probable source of carbon monoxide.

The Plymouth Gas Light Company added an oil gas apparatus to its generating plant. Shortly after its installation, an examination was made of the gas produced. The following results include an analysis of the coal gas formerly produced and of the oil gas as made January 31, 1922.

Kind of gas	Coal.	Oil.
	Dec. 1, 1921.	Jan. 31, 1922.
Date of analysis		
Btu's	539	533
Illuminants	3.88	16.89
Marsh gas	24.92	17.22
Hydrogen	37.65	3.41
Carbon monoxide	6.57	2.08
Nitrogen	21.66	55.29
Oxygen	4.83	0.03
Carbon dioxide	0.49	5.08

In the investigation of a "poor service" complaint at Milford, pressure records were made. The charts showed one section of the town was not well served, the pressure varying, at one station, between 4.2 inches and 1.2 inches or 250%. After the gas company laid a feeder main for this section, the minimum pressure at this station rose to 3.2" with a maximum of 5.8" a variation of 59.4%.

In considering individual complaints from consumers regarding gas bills and service, it was found that few consumers could read meter registers. On this account a circular was issued in January by this Division giving directions for reading meters, detecting leaks and rating appliances; this circular has been widely distributed and it is hoped many consumers will take the time to read their meters and thus keep posted on the rate and amount of gas used.

Some miscellaneous investigations were made such as testing pressures at consumers' premises on high pressure systems, recording pressures in a case of higher pressures on house side of meter than in street, testing out and improving calorimetric installations brought in question by the companies, examining purification systems.

Pressure Survey.

The second requisite for good gas service is uniform and sufficient pressure, the first being uniform quality. In order to get information as to present conditions regarding pressure, a survey has been made in ten districts. The method used is to install recording gauges which show the pressure for seven days. These gauges are installed, after a study of the main system of a district, at such points as will give a fair showing of the pressure over the entire district. The charts thus obtained are averaged by a planimeter and the maximum and minimum pressures noted. The variation between the maximum and minimum is expressed in percentage of the minimum.

The results obtained are tabulated below:—

Arlington.

STATION.	Average.	PRESSURE.		Percentage Variation in Terms of Minimum.
		Maximum.	Minimum.	
1	5.8	7.6	4.4	72.8
2	6.4	8.5	5.7	49.1

ELECTRIC COMPANIES.

The following table gives the names of the persons and corporations under the supervision of the Department who were engaged in the supply of electricity on December 31, 1922, with the localities supplied by each:—

CORPORATE NAME.	Localities supplied.
Abington and Rockland, Electric Light and Power Co. of	Abington, Cohasset, Hanover, Norwell, North Pembroke, Rockland, Scituate.
Adams Gas Light Co.	Adams, Cheshire.
Agawam Electric Co.	Agawam.
American Woolen Co. ¹	Acton, Maynard.
American Woolen Co. ¹	South Royalston.
Amesbury Electric Light Co.	Amesbury, Salisbury.
Amherst Gas Co.	Amherst, Hadley, Hatfield, Pelham, Sunderland, Whately.
Athol Gas and Electric Co.	Athol, Erving, Farley, Orange, Wendell.
Attleboro Steam and Electric Co.	Attleboro.
Ayer Electric Light Co.	Ayer.
Barnes, A. W., Steam Specialty Co.	Boston (in part).
Beverly Gas and Electric Co.	Beverly, Hamilton, Topsfield, Wenham.
Blackstone Electric Light Co.	Blackstone, Millville.
Cambridge Electric Light Co.	Cambridge.
Cape and Vineyard Electric Co.	Barnstable, Bourne, Chatham, Edgartown, Falmouth, Harwich, Oak Bluffs, Sandwich, Vineyard Haven, Yarmouth.
Central Massachusetts Electric Co.	Belchertown, Brookfield, East Brookfield, East Longmeadow, Enfield, Granby, Hampden, Monson, North Brookfield, Palmer, Warren, Wilbraham, West Brookfield.
Charlemont Electric Light and Power Co.	Charlemont.
Charlestown Gas and Electric Co.	Boston, Charlestown District.
Chester Electric Light Co.	Chester.
Citizens' Gas, Electric and Power Co.	Nantucket.
Clinton Gas Light Co.	Clinton, Lancaster.
Eastern Massachusetts Electric Co.	—
Easthampton Gas Co.	Easthampton, Southampton.
Edison Electric Illuminating Co. of Boston	Arlington, Ashland, Bedford, Bellingham, Boston, Brookline, Burlington, Canton, Carlisle, Chelsea, Dedham, Dover, Framingham, Holliston, Hopkinton, Lexington, Lincoln, Medfield, Medway, Millis, Milton, Natick, Needham, Newton, Norfolk, Sharon, Sherborn, Somerville, Stoneham, Sudbury, Walpole, Waltham, Watertown, Wayland, Westwood, Winchester, Woburn, Weston.
Edison Electric Illuminating Co. of Brockton	Avon, Bridgewater, Brockton, East Bridgewater, Easton, Halifax, Hanson, Pembroke, Stoughton, West Bridgewater, Whitman.
Fall River Electric Light Co.	Fall River, Dighton, Somerset, Swansea, Westport.
Fitchburg Gas and Electric Light Co.	Ashby, Fitchburg, Townsend, Lunenburg.
Franklin Electric Light Co.	Montague, Gill.
Gardner Electric Light Co.	Barre, Gardner, Hubbardston, Petersham, Rutland, Westminster.
Gloucester Electric Co.	Essex, Gloucester, Rockport.
Greenfield Electric Light and Power Co.	Ashfield, Bernardston, Buckland, Colrain, Conway, Deerfield, Greenfield, Northfield, Shelburne.
Harvard Gas and Electric Co.	Harvard.
Haverhill Electric Co.	Haverhill.
Holyoke Water Power Co. ²	—
Huntington Electric Light Co.	Huntington.
Lawrence Gas Co.	Andover, Boxford, Lawrence, Methuen, North Andover.
Lee Electric Co.	Lee, Lenox.
Leominster Electric Light and Power Co.	Leominster.
Lowell Electric Light Corporation	Billerica, Chelmsford, Dracut, Lowell, Tewksbury, Tyngsborough, Westford.
Ludlow Electric Light Co.	Ludlow.
Lynn Gas and Electric Co.	Lynn, Nahant, Saugus, Swampscott.

¹ Manufacture of electricity a minor portion of business.

² Supplies electricity to Edison Electric Illuminating Co. of Boston, Malden Electric Co., Salem Electric Lighting Co., Suburban Gas and Electric Co. and Municipal Light Plants of Peabody and Danvers.

³ Hydro-electric company; sale of electricity in bulk only.

CORPORATE NAME.	Localities supplied.
Malden Electric Co.	Everett, Malden, Medford, Melrose.
Manchester Electric Co.	Manchester.
Marlborough Electric Co.	Berlin, Bolton, Marlborough, Northborough, South- borough, Westborough.
Milford Electric Light and Power Co.	Hopedale, Mendon, Milford.
Mill River Electric Light Co.	Williamsburg.
New Bedford Gas and Edison Light Co.	Acushnet, Dartmouth, Fairhaven, Freetown, Lake- ville, Mattapoisett, New Bedford, Wareham, West- port.
Newburyport Gas and Electric Co.	Newburyport, Newbury, West Newbury.
New England Power Co. ¹	—
North Adams Gas Light Co.	Clarksburg, North Adams.
Northampton Electric Lighting Co.	Northampton.
Norton Power and Electric Co.	Norton.
Pittsfield Electric Co.	Dalton, Hinsdale, Lanesborough, Lee, Lenox, Pitts- field, Richmond.
Plymouth Electric Light Co.	Duxbury, Kingston, Marshfield, Plymouth.
Provincetown Light and Power Co.	Provincetown.
Quincy Electric Light and Power Co.	Quincy.
Randolph and Holbrook Power and Electric Co.	Holbrook, Randolph.
Salem Electric Lighting Co.	Salem.
Seekonk Electric Co.	Seekonk, Rehoboth.
Southeastern Massachusetts Power and Electric Co.. . . .	Bourne, Carver, Marion, Rochester, Wareham.
Spencer Gas Co.	Spencer.
Southern Berkshire Power and Electric Co.	Egremont, Great Barrington, Lenox, Monterey, New Marlborough, Sheffield, Stockbridge, West Stock- bridge.
Suburban Gas and Electric Co.	Revere, Winthrop.
Turners Falls Power and Electric Co. ¹	—
Union Light and Power Co. (Franklin)	Bellingham, Foxborough, Franklin, Plainville, Wrentham.
United Electric Light Co. (Springfield)	Longmeadow, Springfield, West Springfield.
Ware Electric Co.	Hardwick, Ware.
Webster and Southbridge Gas and Electric Co.	Brimfield, Charlton, Dudley, Fiskdale, Oxford, Southbridge, Sturbridge, Wales, Webster.
Westborough Gas and Electric Co. ²	—
Weymouth Light and Power Co.	Weymouth.
Williamstown Gas Co.	Williamstown.
Winchendon Electric Light and Power Co.	Winchendon.
Worcester Electric Light Co.	Leicester, Worcester.
Worcester Suburban Electric Co.	Auburn, Douglas, Grafton, Mendon, Millbury, Upton, Uxbridge, Sutton, Northbridge.

¹ Hydro-electric company; sale of electricity in bulk only.² Operated under lease to Marlborough Electric Co.

General Balance Sheet.

The assets and liabilities of the electric companies as returned on December 31, 1922 are as follows:—

ASSETS.

Cost of plant and general equipment	\$159,964,902 90
Miscellaneous physical property and other investments	1,009,331 41
Current Assets	15,410,921 42
Reserve funds	80,791 60
Prepaid accounts	327,690 87
Unadjusted debits	1,809,533 12
Grand total	\$178,603,171 32

LIABILITIES.

Capital stock	\$76,507,150 00
Premium on capital stock	26,965,894 23
Bonds and coupon notes	34,237,573 96
Current liabilities	20,578,584 77

Accrued liabilities	\$1,551,510 56
Unadjusted credits	1,950,390 61
Reserves	9,060,768 64
Appropriated surplus	68,042 51
Profit and Loss	7,683,256 04
Grand total	\$178,603,171 32

INCOME AND EXPENDITURES

The total income of the electric companies and the gas companies doing an electric business for the year ended December 31, 1922, was \$53,382,393.99, and the total expenditures (exclusive of dividends) for the same period were \$40,308,791.66, leaving a net surplus of \$13,073,602.33 to be added to the surplus of previous years.

The sources of total income and the amount derived from each source are shown in the following table:—

REVENUES.	
Revenue from sale of electricity	\$52,376,820 16
Revenue from miscellaneous operations	382,543 72
Miscellaneous non-operating income	623,030 11
Total revenues	\$53,382,393 99

The items of total expenditures are shown in the following table:—

EXPENDITURES.	
Total operating expenses	\$30,692,655 87
Uncollectible operating revenues	143,128 38
Taxes assignable to electric operation	5,686,730 20
Interest on bonds and notes	3,327,842 35
Miscellaneous deductions	458,434 86
Total expenditures	\$40,308,791 66
Income balance transferred to profit and loss	\$13,073,602 33

The following table shows the surplus from gas and electric operations for the year ended December 31, 1922 and the amount of dividends declared during the same period:—

Surplus for the year from gas operations	\$5,286,785 47
Surplus for the year from electric operations	13,073,602 33
Total surplus	\$18,360,387 80
Dividends declared during the year	12,937,988 30
Surplus	\$5,422,399 50

Dividends.

Thirteen companies paid no dividends. The other ninety-five companies declared dividends amounting to \$12,937,988.30 for the year, which is an average rate of 9.64 per cent on their capital stock.

WATER COMPANIES.

The following table gives the names of the corporations under the supervision of the Department who were engaged on December 31, 1922, in distributing and selling water, with the names of the localities supplied:—

CORPORATE NAME.	Localities Supplied.
Amherst Water Company	Amherst, Pelham.
Ashfield Water Company	Ashfield.
Aspinwall Water Company	Lenox. ¹
Auburn Water Company	Auburn.
Barnstable Water Company	Barnstable, Yarmouth.
Berkshire Water Company	Lee, Lenoxdale.
Brant Rock Water Company	Marshfield (Brant Rock, Green Harbor, Duxbury Beach).
Bridgewater Water Company	Bridgewater.
Cheshire Water Company	Cheshire.
Cohasset Water Company	Cohasset.
Cottage City Water Company	Oak Bluffs.
Dedham Water Company	Dedham.
East Mountain Water Company ²	West Stockbridge.
Edgartown Water Company	Edgartown.
Fairhaven Water Company	Fairhaven.
Grafton Water Company	Grafton.
Granville Center Water Company	Granville Center.
Groton Water Company	Groton.
Hill Water Company	Prospect Hill (Stockbridge).
Hingham Water Company	Cohasset (in part), Hingham, Hull.
Holliston Water Company	Holliston.
Housatonic Water Works Company	Housatonic (Great Barrington).
Humarock Beach Water Company	Humarock Beach (Scituate), Ferry Hill (Marshfield).
Lenox Water Company	Lenox, Stockbridge.
Ludlow Manufacturing Company	Ludlow.
Milford Water Company	Hopedale, Milford.
Millbury Water Company	Millbury.
Monterey Water Company	Monterey.
Monument Beach Water Works ²	Bourne (Monument Beach).
Mountain Spring Water Company	Southampton.
Northfield Water Company	Northfield (in part).
Northfield Schools ³	East Northfield.
Norton Water Company	Norton.
Onset Water Company	Onset.
Oxford Water Company	Oxford.
Riverside Water Company	Gill (Riverside).
Salisbury Water Supply Company ⁴	Salisbury.
Scituate Water Company	Scituate.
Sheffield Water Company	Sheffield.
Southbridge Water Supply Company	Southbridge.
South Egremont Water Company	South Egremont.
Stockbridge Water Company	Stockbridge, Glendale.
Sunderland Water Company	Sunderland.
The Thorndike Company (Warren Cotton Mills)	West Warren.
Wannacomet Water Company	Nantucket.
Westford Water Company	Westford.
Westhampton Water Company	Westhampton.
Westwood Water Company ²	Westwood (in part).
Williamstown Water Company	Williamstown.

¹ Supplies Aspinwall Hotel only.

² Unincorporated.

³ Supplies Northfield Seminary and certain private customers in East Northfield.

⁴ Also owns and operates a sewer system on Salisbury Beach.

RETURNS OF GAS AND ELECTRIC COMPANIES.

The Electric Light and Power Company of Abington and Rockland.

(YEAR ENDED DECEMBER 31, 1922.)

PRINCIPAL OFFICERS.

President, Orrin G. Wood, Boston, Mass. *Vice-President*, A. Stuart Pratt, West Newton, Mass. *Clerk*, Victor D. Vickery, Cambridge, Mass. *Treasurer*, Henry B. Sawyer, Boston, Mass. *Manager*, F. N. Sanderson, North Abington, Mass. *Assistant Treasurer*, John T. G. Nichols, Cambridge, Mass.

DIRECTORS.

George R. Blinn, Bedford, Mass. Wilmont R. Evans, Jr., Everett, Mass. Edward V. French, Winchester, Mass. Lot Phillips, West Hanover, Mass. Roger Pierce, Milton, Mass. James W. Spence, Rockland, Mass. Orrin G. Wood, Boston, Mass.

GAS STATISTICS.

TABLE 1.

The following table shows the amount of gas made and the amount bought, the amount sold by meter and for public lamps, the amount used at works and offices with the amount of gas unaccounted for during the year ended December 31, 1922, and the percentage of unaccounted-for gas:—

Coal and Water Gas Companies.

GAS COMPANIES.									
	Gas made.	Gas bought.	Gas sold by Meter.	Gas sold for Public Lamps.	Gas used at Works and Offices.	Gas unaccounted for.	Percentage unaccounted for.

TABLE 7. — *Analysis of Reported Income and Expenditures of the Larger Companies.*

The following tables give an analysis, on the unit basis of 1,000 feet of gas, of the income and expenditures of all the gas companies making or selling more than 100,000,000 feet of gas during the year as stated by the companies in their returns. Of these companies, the Beverly, Charlestown, Fitchburg, Lawrence, Lynn, New Bedford, North Adams, Suburban and Webster sell electricity as well as gas; consequently, the total income and dividends cannot fairly be stated on the gas unit basis. The analysis of the production expenses is stated on the basis of the gas made. This basis is adopted in deference to the provisions of section 3 of chapter 422 of the Acts of 1906, requiring the annual publication of certain similar information relating to the Boston Consolidated Gas Company. The tables on pages 300 and 303 give the respective amounts of gas made, bought and sold during the year.

ANALYSIS OF REPORTED INCOME AND EXPENSES OF THE LARGER COMPANIES, AS SHOWN IN TABLE 4.

The following tables give an analysis, on the unit basis of kilowatt hours of electricity sold, of the income and expenses of all the electric companies making or purchasing more than 10,000,000 kilowatt hours of electricity during the year, as stated by the companies in their returns. The analysis of the expense of manufacturing electricity is computed on the kilowatt hours made, as a fairer basis for comparing such cost. In the kilowatt hours sold are included all electricity supplied to the street light circuits measured at the switchboards of the several companies. Of the companies included in this table, the Fitchburg, Lawrence, Lynn, New Bedford, Newburyport and Webster sell gas as well as electricity; consequently, the net income available for dividends, interest and other general expenses cannot fairly be stated on the kilowatt hour unit basis.

TABLE 4. — Analysis of Reported Income and Expenses of the Larger Companies.

YEAR ENDED DECEMBER 31, 1922

PART III

STATISTICS AND RETURNS—RAILROAD, STREET RAILWAY,
TELEPHONE AND TELEGRAPH AND STEAMBOAT
COMPANIES

PUBLICATION OF THIS DOCUMENT
APPROVED BY THE
COMMISSION ON ADMINISTRATION AND FINANCE

380 1922
M38p pt. 3

The Commonwealth of Massachusetts.

RAILROAD STATISTICS.

Annual returns for the year ended Dec. 31, 1922 have been received from thirty-one railroad corporations; also returns from a canal company and a sleeping car company.

There was returned the past year a net decrease of 1.47 miles of railroad line, 4.36 miles of second track, 2.03 miles of third track, 1.98 miles of fourth track and 25.95 miles of side track located in this Commonwealth, caused by additions, remeasurements and abandonments.

There are now in Massachusetts 2,105.32 miles of main and branch¹ railroad line. The total length of railroad track within the Commonwealth, including second, third and fourth main track and side track, is 4,961.24 miles.

STATISTICS.

The following compilations of statistics are from the returns of the several railroad companies to the Commission for the year ended December 31, 1922.

The following list shows the total mileage computed as single track, owned and operated by each railroad corporation within and without the Commonwealth.

Railroad Mileage Owned and Operated, within and without the Commonwealth.

The following table gives the length of railroad line and track in this Commonwealth on December 31, 1922, as compared with the previous year: —

Railroad Mileage in Massachusetts December 31, 1921 and 1922.

RAILROAD MILEAGE.	1921.	1922.	Increase.
	Miles.	Miles.	Miles.
Length of main and branch lines	2,106.79	2,105.32	1.47*
Length of second track	940.04	935.68	4.36*
Length of third track	93.18	91.15	2.03*
Length of fourth track	46.43	44.45	1.98*
Length of side track	1,810.59	1,784.64	25.95*
Total computed as single track	4,997.03	4,961.24	35.79*

* Decrease.

Mileage Owned.

The total length of railroad line *owned* by the Massachusetts companies *in* and *out* of the Commonwealth is 4,614.82¹ miles; and the total length of railroad track so owned is 9,884.56⁴ miles. The miles of main and branch line, of second, third and fourth main track, and of side track, owned December 31, 1922, and the increase over the previous year, are stated in the following table: —

Mileage Owned by Reporting Companies December 31, 1921 and 1922.

MILEAGE OWNED.	1921.	1922.	Increase.
	Miles.	Miles.	Miles.
Length of main and branch lines	4,618.21 ¹	4,614.82 ¹	3.39*
Length of second track	1,602.23	1,592.72	9.51*

* Decrease.

^d Deficit.

DIVIDENDS.

The total amount of dividends declared during the year was \$5,352,546, — an increase of \$70,726 over the previous year.

Eighteen corporations declared dividends varying in rate from $2\frac{1}{4}$ to 14 per cent; the following table gives the names of the dividend-paying companies, the rate per cent, and amount of dividend declared: —

NAME OF COMPANY.	Rate Per Cent.	Amount of Dividends Declared.
Attleboro Branch	5	6,585
Boston and Albany	8 $\frac{3}{4}$	2,187,500
Boston and Providence	10	399,600
Boston, Revere Beach and Lynn	4	34,000
Chatham	5 $\frac{1}{2}$	3,751
Holyoke and Westfield	14	36,400
Hoosac Tunnel and Wilmington	10	25,000

^d Deficit.¹ Appropriations for additions, betterments and reserves deducted.² Year ended December 31.

INCOME AND EXPENDITURES.

The total income of the companies from all sources for the year ended December 31, 1922, was \$261,269,039.80, and the total expenditures, including dividends declared, were \$266,071,098.37, showing a net deficit for the year of \$4,802,058.57 to be deducted from the surplus of previous years.

The sources of total income, and the amount derived from each source as compared with the previous year, were as follows:—

Total Income, December 31, 1921 and 1922.

INCOME.	1921.	1922.	Increase.
Total Railway Operating Revenues	\$234,291,735 24	\$244,693,208 53	\$10,401,473 29
Miscellaneous Operating Income	—	—	—
Income from Lease of Road	8,355,758 02	8,426,448 28	70,690 26
Non-operating Income	10,373,928 18	8,149,382 99	2,224,545 19*
Total Income	\$253,021,421 44	\$261,269,039 80	\$8,247,618 36

* Decrease.

The items of the total expenditures for the year 1921, and also those for the year 1922, with the surplus for the above years, and the increase or decrease in each item, are shown in the following table:—

Total Expenditures, December 31, 1921 and 1922.

EXPENDITURES.	1921.	1922.	Increase.
Railway Operating Expenses	\$214,847,394 37	\$200,279,581 08	\$14,567,813 29*
Railway Tax Accruals	8,790,585 65	8,967,583 93	176,998 28

¹ Year ended December 31.^d Deficit.

VOLUME OF TRAFFIC.

Passenger Traffic.

The total number of passengers carried the last year was 163,144,797, a decrease of 7,439,853 passengers from the previous year. Each passenger on the steam roads travelled on the average a distance of 19.61 miles, making the total passenger mileage, 3,198,905,862, — a decrease of 82,323,470 compared with the previous year.

The total volume of passenger traffic for each of the last ten years is shown in the following table:—

Passenger Mileage for Ten Years, 1913-1922.

YEARS.	Passengers Carried.	Average Journey (Miles).	Total Passenger Mileage.	Average Number of Passengers per Train Mile.
1913	170,278,768	17.39	2,961,169,563	85
1914	168,251,728	17.59	2,959,488,989	87
1915	159,285,185	17.44	2,778,395,343	84
1916 ¹	166,771,603	17.95	2,994,012,001	89
1917 ¹	176,350,853	18.52	3,265,777,891	101
1918 ¹	169,100,469	19.06	3,222,222,728	111
1919 ¹	189,654,031	18.79	3,563,551,544	119
1920 ¹	197,912,345	18.99	3,757,669,731	121
1921 ¹	170,584,650	19.23	3,281,229,332	110
1922 ¹	163,144,797	19.61	3,198,905,862	111

¹ Year ended December 31.*Freight Traffic.*

The total number of tons of freight hauled on all the roads the last year was 64,466,152, — an increase of 4,783,786 tons over the previous year. Each ton of freight was hauled on the average a distance of 110.28 miles, making the total freight mileage, 7,109,044,753, — an increase of 175,115,723 tons hauled one mile as compared with the previous year.

The total volume of freight traffic for each of the last ten years is shown in the following table:—

Freight Mileage for Ten Years, 1913-1922.

YEARS.	Tons of Freight Hauled.	Average Haul (Miles).	Total Freight Mileage.	Average Number of Tons of Freight per Train Mile.
1913	63,729,052	101.09	6,442,438,763	293

Other	4	17	8	6
Total	38	56	44	33

Grade Crossings.

The following table shows, for the year ended December 31, 1922, the number and character of accidents at grade crossings on the different railroads:—

RAILWAY STATISTICS.

Annual returns for the year ended December 31, 1922, have been received from forty-two railway companies. Returns have also been received from the receivers of the Brockton & Plymouth, Concord, Maynard & Hudson, Connecticut Valley, and Northern Massachusetts. A total of forty-six returns was received.

COMPANIES DROPPED FROM THE LIST.

During the year the Brockton and Plymouth was reorganized and name changed to Plymouth and Brockton. The West End was consolidated with the Boston Elevated on June 10, 1922.

OPERATION OF COMPANIES.

There were at the end of the year forty-two existing companies: of this number twenty-eight operated their railways the whole year, two a portion of the year, namely, the Plymouth and Brockton which began operation on Nov. 1, 1922, and the Medway and Dedham formerly leased by the Milford and Uxbridge began operating its own line on Oct. 1, 1922; twelve were operated under lease or contract by other companies.

STATISTICS.

The following compilations of statistics are from the returns of the several street railway companies to the Department for the year ended December 31, 1922.

Miles of Track owned and operated computed as Single Track.

NAME OF RAILWAY.	Total Track Owned.	Total Track Operated.

1920 ³	246,129,163	248,796,950	2,667,787 <i>d</i>	2.57 <i>d</i>
1921 ³	244,717,202	247,419,556	2,702,354 <i>d</i>	2.61 <i>d</i>
1922 ³	241,465,912	243,709,651	2,243,739 <i>d</i>	2.10 <i>d</i>

¹ Includes "premiums on sales of stock and bonds" and "sinking and other special funds."² The apparent discrepancy in the surplus for the year 1915 is due to a change in the classification of accounts. Premiums on sales of stock and bonds and sinking and other special funds now appear in separate accounts.³ Year ended December 31.*d* Deficit.

DIVIDENDS.

The total amount of dividends declared the past year was \$4,326,678.69.

Twenty-three corporations declared dividends varying in rate from 2 to 20 per cent; the following table gives the names of the dividend-paying companies, the rate per cent and amount of dividend declared:—

Dividends Declared.

NAME OF COMPANY.	RATE PER CENT.		Amount of Dividends Declared.

¹ Year ended December 31.

^d Deficit.

INCOME AND EXPENDITURES.

The total income of the companies from all sources for the year ended December 31, 1922, was \$61,783,515, and the total expenditures (including dividends declared) for the same period were \$59,669,113.07, — making a net surplus of \$2,114,401.93, to be added to the surplus of previous years.

The sources of total income, and the amount derived from each source as compared with 1921, are shown in the following table: —

Total Income, December 31, 1921 and 1922.

INCOME.	1921.	1922.	Increase.
Total operating revenues	\$62,344,891 64	\$60,897,233 82	\$1,447,657 82*
Net revenue from auxiliary operations	2,224 18†	48,087 52	50,311 70
Income from lease of road	2,786,666 44	154,427 55	2,632,238 89*
Miscellaneous nonoperating income	826,886 43	683,766 11	143,120 32*
Total income	\$65,956,220 33	\$61,783,515 00	\$4,172,705 33*

* Decrease.

† Debit.

The items of total expenditure, with the increase and decrease in each item over the previous year, are shown in the following table: —

Total Expenditures, December 31, 1921 and 1922.

EXPENDITURES.	1921.	1922.	Increase.
Total operating expenses	\$46,696,106 17	\$44,403,594 72	\$2,292,511 45*
Taxes	2,442,863 96	2,632,859 94	189,995 98
Rents for leased roads	3,007,855 25	1,458,951 21	1,548,904 04*
Interest on debt and loans	5,750,659 62	4,789,769 78	960,889 84*

Maintenance of organization	10,933 00	1,941 39	8,991 61*
Miscellaneous debits	1,852,180 02	2,003,669 55	151,489 53
Dividends declared	3,617,372 24	4,326,678 69	709,306 45
Total expenditures	\$63,426,333 99	\$59,669,113 07	\$3,757,220 92*
Surplus for the year	2,529,886 34	2,114,401 93	415,484 41*

* Decrease.

REVENUES AND EXPENSES OF OPERATION.

The operating revenues and operating expenses the last year are classified and compared with those of the previous year in the following table: —

Operating Revenues and Expenses December 31, 1921 and 1922.

REVENUES AND EXPENSES.	1921.	1922.	Increase.
Passenger revenue	\$59,874,579 13	\$58,479,167 01	\$1,395,412 12*
Parlor and special car revenue	68,375 59	64,988 29	3,387 30*
Mail	42,162 23	41,871 47	290 76*
Express, baggage and freight	825,622 59	812,981 67	12,640 92*
Milk	15,642 36	13,664 13	1,978 23*
Miscellaneous transportation revenue	23,914 07	31,008 87	7,094 80
Total revenue from operations other than transportation	1,494,595 67	1,453,552 38	41,043 29*
Total operating revenues	\$62,344,891 64	\$60,897,233 82	\$1,447,657 82*
Operating expenses	46,696,106 17	44,403,594 72	2,292,511 45*
Net operating revenue	\$15,648,785 47	\$16,493,639 10	\$844,853 63

* Decrease.

The following table gives the operating revenues, the operating expenses, the ratio of operating expenses to operating revenues, and the net revenue from operation for each of the last ten years:—

Ratio of Operating Expenses to Operating Revenues, 1913-1922.

YEARS.	Operating Revenues.	Operating Expenses.	Ratio of Operating Expenses to Operating Revenues.	Net Revenue from Operation.
1913	\$38,125,693	\$25,729,054	67.48	\$12,396,639
1914	39,703,706	26,665,220	67.16	13,038,486
1915	39,537,443	27,194,899	68.78	12,342,544
1916 ¹	43,150,201	30,753,333	71.27	12,396,868
1917 ¹	44,781,773	33,816,895	75.51	10,964,878
1918 ¹	45,739,095	40,217,882	87.93	5,521,213
1919 ¹	58,555,290	48,643,710	83.07	9,911,580
1920 ¹	65,603,068	54,306,055	82.78	11,297,013
1921 ¹	62,344,892	46,696,106	74.90	15,648,786
1922 ¹	60,897,234	44,403,595	72.92	16,493,639

¹ Year ended December 31.

EMPLOYEES AND EQUIPMENT.

The number of persons employed by the street railway companies, and also the number of passenger cars, other cars and plows and electric motors owned, are given in the following table for each of the last ten years:—

Employees and Equipment, 1913-1922.

YEARS.	Employees.	Passenger Cars.	Other Cars and Plows.	Electric Motors.
1913	24,136	8,154	2,897	19,623
1914	23,412	8,364	2,927	20,636
